

2nd Workshop on « Nano et Micro-Environments for Cell Biology »

PROGRAM:

9.00: Attendee welcome

9.30: Martial BALLAND (Team 'Motiv', Laboratoire Interdisciplinaire de Physique) **and Emmanuelle PLANUS** (Team 'Dysad', Institut Albert Bonniot)

Mechanical and structural behavior of the cytoskeleton: importance of the environmental surroundings for adherent cells

10.20: ORAL POSTERS PRESENTATION – PART I

10.40: Coffee break

11.00: ORAL POSTERS PRESENTATION – PART II

11.30: Catherine PICART (Team 'Interactions entre Matériaux et Matière Biologique', Laboratoire des Matériaux et du Génie Physique)

Bioengineering of musculo-skeletal tissues by multi-functional surface coatings

12.00: Lunch (free buffet – [registration required](#))

13.15: POSTER SESSION

15.00: Don MARTIN, Chair of Excellence at the Nanosciences Foundation
(Project MekaNo, TIMC-IMAG)

Production of Energy from Na⁺ Ion Transport utilising Nanostructured Biomimetic Membranes

16.00: BEST POSTERS AWARD CEREMONY

2nd Workshop on « Nano et Micro-Environments for Cell Biology » - June 24, 2011 – Phelma MINATEC
